

# Virtual Watercolor Workshop with Steve Zazenski

## **Expanded Biography:**

A full-time artist since 1978, Steve is known for his exciting and colorful landscapes, ranging from coastal New England to Europe and the Caribbean.

Steve paints in both transparent watercolor and gouache, an opaque watercolor, depending on the subject at hand. An intense feeling of light is apparent in all his work, as well as a strong sense of design. "I use the natural and man-made objects I see as design elements that combine to form interesting combinations of light and mass".

Steve has won numerous awards from NJWS, Salmagundi Club, Garden State Watercolor Society, American Artists Professional League, Washington Square Outdoor Art Show, Rittenhouse Square Outdoor Exhibit, Rockport Art Association and many local regional art shows.
